

# Hunger in Somalia

Struck by one of the worst droughts in 60 years, tens of thousands Somali's have died of malnutrition and related diseases. A relentless conflict has depleted the country's food. Millions of Somalis are at risk and in urgent need of aid in the midst of what has been officially declared a famine by the UN. EFCA ReachGlobal is responding through the Africa Famine Relief fund to equip the national church to meet the needs of those they are ministering to as the result of famine in Somalia.
