Don't talk Jesus, live it. Better witness: a tract or a home? Strengthen the local church in Mexico by building hope within a family's life. More than 18,000 participants in 2001 built homes, churches, schools, and medical clinics with little or no building experience in Baja California, Ciudad Juarez, and Puerto Peiasco, Mexico. A house means one more child will live and a family will stay together. W.W.J.D.? He was a carpenter. [www.amor.org/MissionTrips.html](http://www.amor.org/MissionTrips.html)

The Pittsburgh Project is a nonprofit community development organization with a 22-year track record of developing leaders and serving the city's most vulnerable residents. Executive Director Saleem Ghubril and our year-round staff of 40 operate a progressive series of afterschool programs for urban young people, deploy over 2500 people annually to perform free home repairs for Pittsburgh's in-need elderly homeowners, outfit college students for urban service and leadership, and spearhead economic development and anti-violence efforts in our Pittsburgh neighborhood.

*"The ministry is sound, at least during the general sessions & through conversations with staff. However, many of the groups that come are very theologically unsound (more than one way to get to heaven, etc...). I do recommend the Pittsburgh Project, but with caution. My group is fairly solid so I am comfortable bringing them there (they have really helped some of the groups think through things), but if my group was not solid (easily swayed), I may not go to the Pittsburgh Project. Last, for our group, it is a great time for them to serve & relationally as a group. The Pittsburgh Project is very well organized & is very professional."* EFCA Youth Pastor
